1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

2. In the second part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

3. The third part of the paper is devoted to a discussion of the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

4. In the fourth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

5. The fifth part of the paper is devoted to a discussion of the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

6. In the sixth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

7. The seventh part of the paper is devoted to a discussion of the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

8. In the eighth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

9. The ninth part of the paper is devoted to a discussion of the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

10. In the tenth part of the paper, the author discusses the structure of the atom in more detail. He shows that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are derived from the principles of relativity and the laws of conservation of energy and momentum.

TO HOSPITAL OR ATTENDING PHYSICIAN: The law requires that the death certificate be executed within 24 hours after death. It may be retained by the hospital or attending physician.

TO FUNERAL DIRECTOR: After this certificate has been signed by the attending physician and completely filled in by the funeral director, pages 3 and 4 should be detached for use as the burial-transit permit. Then please remove carbon papers. Pages 1 and 2 should be filed with the State Dept. of Health and Mental Hygiene prior to burial, cremation, or removal. IMPORTANT: If item 21 is marked or item 18 shows any injury, or other traumatic event, the medical examiner will be notified at the funeral home.

TO HOSPITAL OR ATTENDING PHYSICIAN: The law requires that the death certificate be executed within 24 hours after death. Pages 4 may be retained by the hospital or attending physician.

TO FUNERAL DIRECTOR: After this certificate has been signed by the attending physician and completely filled in by the funeral director, page 3 should be detached for use as the burial-transit permit. Then please remove carbon papers. Pages 1 and 2 should be filed with the death certificate with the State Dept. of Health and Mental Hygiene prior to burial, cremation, or removal.

IMPORTANT: If item 21 is marked or item 18 shows any injury or other traumatic event, the medical examiner must be notified at once.

TO FUNERAL DIRECTOR: After this certificate has been signed by the attending physician and completely filled in by the funeral director, page 3 should be detached for use as the burial-transit permit. Then please remove carbon papers. Pages 1 and 2 should be filed with the registrar after death with the State Dept. of Health and Mental Hygiene prior to burial, cremation, or removal.

IMPORTANT: If item 21 is marked or item 18 shows any injury, or other traumatic event, the medical examiner must be notified.

TO HOSPITAL OR ATTENDING PHYSICIAN: The law requires that the death certificate be executed within 24 hours after death. Page 4 may be retained by the hospital or attending physician.

TO FUNERAL DIRECTOR: After this certificate has been signed by the attending physician and completely filled in by the funeral director, page 3 should be detached for use as the burial-transit permit. Then please remove carbon papers. Pages 1 and 2 should be filed with the State Dept. of Health and Mental Hygiene prior to burial, cremation, or removal.

IMPORTANT: If item 21 is marked or item 18 shows any injury, or other traumatic event, the medical examiner must be notified and a necropsy performed.
